1. On behalf of the Intelligence Community Staff I wish to thank you, [redacted] for the tour and briefing you provided for General Heinz on 7 December. 2. The facility and its reputation have grown impressively in its twenty years of service. The Intelligence Community Staff shares your desire that the size of the faculty will soon catch up with the long-awaited and recently completed physical expansion. If we can assist you in any way with the faculty problem beyond the past pleas and exhortations, we shall certainly try to help. General Heinz appears to be personally committed to activity in the area of community staffing if and when the [redacted] management opines that his involvement might be beneficial. Best wishes for continued success. [redacted]
